

## BusinessObjects Dashboard Manager: Designing Dashboards COURSE CODE: BOD210 - PM310R2

**Duration:** 3 days

### Delivery Type

- Instructor-led Classroom

### Audience

- The audience for this course may consist of BusinessObjects XI Release 1 and BusinessObjects XI Release 2 customers.

### Prerequisites:

Essential

- \* Prerequisite Education
- Not applicable for this offering.
- \* Prerequisite Knowledge/Experience (While not required for this course, experience with these products or technologies will be helpful:)
- BusinessObjects Universe Designer
- BusinessObjects Web Intelligence® XI
- BusinessObjects Enterprise XI

Recommended

- None

### Goals

- BusinessObjects™ Dashboard Manager XI enables the deployment of powerful dashboards to provide visibility, alignment and insight across the enterprise.
- This three-day instructor-led classroom course provides hands-on activities that take you step-by-step from setting up the metric universe and Performance Management repository to guiding navigation through a corporate dashboard.
- As a business benefit, by understanding not only Dashboard Manager functionality, but also the workflow involved among the different roles in a dashboard deployment-system administrator, universe designer, performance management designer-you will know exactly what needs to be in place before you can perform tasks, and if not, who you should talk to.

### Course Based on Software Release

### Content

- Understanding Dashboard Manager
  - What is Dashboard Manager?
  - Performance Management architecture
- Setting Up Dashboard Manager
  - Setting up Performance Management
  - Creating the metric universe
