

BusinessObjects Desktop Intelligence: Report Design COURSE CODE: BOR210 - QA230R2

Duration: 2 days

Delivery Type

- Instructor-led Classroom

Audience

- The target audience for this course is business users who need to generate effective reports using BusinessObjects™ Desktop Intelligence.
- The audience for this course may consist of BusinessObjects 6.5, BusinessObjects XI Release 1 and BusinessObjects XI Release 2 customers.
- The XI Release 2 icon and the BusinessObjects 6.5 icon have been placed throughout the guide to identify features that are specific to each version, or to indicate potential differences.

Prerequisites:

Essential

- * Prerequisite Education
- Not applicable for this offering.
- * Prerequisite Knowledge/Experience
- Not applicable for this offering.

Recommended

- None

Goals

- Desktop Intelligence™ is an integrated query, reporting and analysis solution that allows business users to access the data in their corporate databases directly from their desktop and present and analyze this information in a Desktop Intelligence document.
- This two-day instructor-led classroom course is designed to give you comprehensive skills and core knowledge to present and analyze information, distribute documents and reports and use the major reporting features of Desktop Intelligence.
- After completing this course you will be able to present information in reports as tables, as well as sophisticated dynamic documents with drillable charts.
- You will also be able to distribute documents and reports to colleagues.
