

## [SAFE-TEAM]: SAFe® for Teams 5

Length : 2 Days  
Delivery Method : Instructor-led (Classroom)

### Course Overview

Build the skills needed to become a high-performing team member of an Agile Release Train (ART) and learn how to collaborate effectively with other teams — by becoming a SAFe 5 Practitioner (SP).

During this two-day SAFe® for Teams course, attendees will gain an in-depth understanding of the ART, how it delivers value, and what they can do to effectively perform their role using Scrum, Kanban, and XP.

They will also learn how to write stories and break down features, plan and execute iterations, and plan Program Increments. Finally, they'll learn about the continuous delivery pipeline and DevOps culture, how to effectively integrate with other teams in the program, and what it takes to continuously improve the train.

### Audience Profile

There are no pre-requisites for this SAFe for Teams course. However, an understanding of Agile concepts and terminology, awareness of Scrum, Kanban and XP, a working knowledge of software and hardware development processes is highly recommended for people intending to take the SAFe Practitioner (SP) certification exam.

It will benefit:

- Team members who apply Lean and Agile at scale
- All members of an Agile Release Train preparing for launch

### At Course Completion
