

[MB-210T01]: Dynamics 365 for customer engagement for sales

Length	: 1 Day
Level	: Intermediate
Technology	: Dynamics
Delivery Method	: Instructor-led (Classroom)

Course Overview

Microsoft Dynamics 365 for Sales is an end-to-end application to manage the handling of customers and potential customers; tracking data against sales goals, automating your best practices, learning from your data and more.

Join our team of globally recognized experts as they take you step by step from lead to opportunity to closed deal. Using the application's available automation and customization options you will learn how to enable sales staff to be their most productive selves.

Audience Profile

A Dynamics 365 Customer Engagement Functional Consultant is responsible for performing discovery, capturing requirements, engaging subject matter experts and stakeholders, translating requirements, and configuring the solution and applications. The Functional Consultant implements a solution using out of the box capabilities, codeless extensibility, application and service integrations.

At Course Completion

- Install and configure the application
- Identify common sales scenarios
- Complete a sales cycle
- Configure product catalog
- Manage customer records
- Utilize analytics tools with customer data

Pre-Requisites

Familiarity of business applications and the desire to customize and implement them for your business.

Course Outline

Module 1: Sales Overview

In this module you will learn the basics of sales in Dynamics 365. We will install and configure the application as well as learn about security roles, key terms and the data model.
