

[PMP]: Project Management Professional

Length : 5 days
Delivery Method : Instructor-led (Classroom)

Course Overview

PMI's Project Management Professional (PMP)[®] credential is the most important industry recognized certification for project managers. Globally recognized and demanded, the PMP[®] demonstrates that you have the experience, education and competency to successfully lead and direct projects.

This PMP[®] Examination Preparation (Activity-based approach) course helps you understand the core principles of PMP[®] and provides the skills to pass the demanding and challenging PMP[®] examinations. Our training sessions are based on the latest 5th Edition of the Project Management Book Of Knowledge (PMBOK).

Unlike many PMP program that are dry and un-inspiring, we have created ours based on activities as it helps you to learn much better.

Audience Profile

The PMP[®] recognizes demonstrated competence in leading and directing project teams. If you're an experienced project manager looking to solidify your skills, stand out to employers and maximize your earning potential, the PMP credential is the right choice for you.

Candidates preparing for PMI's PMP[®] certification will also find this course very useful for them in their certification preparations.
