

[ADM103]: System Administration II for SAP S/4HANA and SAP Business Suite

Length : 4 Days
Delivery Method : Instructor-led (Classroom)

Course Overview

Are you responsible for the smooth operations of the SAP systems? The course delivers fundamental knowledge you need to keep the system running. You will get acquainted with a broad spectrum of administrative activities for AS ABAP based SAP Systems. After completing this course you will be prepared to carry out administrative tasks for SAP Business Suite as well as for SAP S/4HANA, as the technological platform, AS ABAP is common for both. During these five days you will learn to start and stop SAP systems and how to configure them, how to manage users and create backups or prepare for a system-maintenance and more. Throughout the training you will work with administrative rights on the operation system as well as in the SAP system.

Goals

- Performing additional administrative tasks that are not dealt with in the course ADM100 (System Administration I for SAP S/4HANA and SAP Business Suite)
- Support internet applications, external emails, and test scripts in ABAP Administration
- Perform administrative tasks to provide help and multiple languages in SAP systems

Audience

- SAP system administrators
- Technology consultants

Pre-Requisites

Essential

- SAPTEC – Technology Fundamentals for SAP S/4HANA and SAP Business Suite
- ADM100 – System Administration I for SAP S/4HANA and SAP Business Suite
-

Recommended

None

Course based on software release

AS ABAP 7.51

SAP S/4HANA 1610
