

## [IFC]: ISTQB Foundation Certificate

Length : 3 Days  
Delivery Method : Instructor-led (Classroom)

### Course Overview

Want to establish a solid foundation for your testing career? In the ISTQB® Foundation course, you will learn how to apply test principles and control your own test activities using test processes and methodologies that are global best practice.

The ISTQB Foundation Certificate is an essential accreditation for all testing professionals. Internationally recognised, it is the industry standard professional qualification and has become a prerequisite among many hiring managers when considering testing candidates.

### Audience Profile

This ISTQB Foundation course has no prerequisites. However, it is suggested that candidates have at least six months' practical experience in a professional testing role.

It is designed for:

- **Upskilling**  
Anyone looking to understand software testing principles and terminology
- **Accrediting**  
Testers seeking to accredit their skills for recognition among employers, clients and peers
- **Understanding**  
Current and prospective testers wanting to improve their testing knowledge

### At Course Completion

- Learn fundamental testing principles, including details of the testing process
- Understand testing throughout the software development lifecycle
- Apply static test techniques
- Apply a variety of test design techniques for more effective test preparation
- Understand management of the testing process
- Identify tools that support testing

### Course Outline

- **Fundamentals of software testing**
- **Testing across the software lifecycle**
- **Static techniques**
- **Test design techniques**
- **Test management**
- **Tool support for testing**

## Getting Certified

At the end of the ISTQB Foundation course, candidates are assessed with a closed book exam that is 60 minutes in duration (or 75 minutes for candidates taking exams outside of their native language).

It is a 40-question multiple choice exam with each question being worth 1 point. Candidates must score a minimum of 26 points (or 65%) to pass the exam and become a Foundation Certified Tester. Examinations are independently administered and assessed.
