

[TPC]: TMMi Professional Certificate

Length : 2 Days
Delivery Method : Instructor-led (Classroom)

Course Overview

Want to improve the way your organisation works? In this TMMi® Professional course, you will learn why process improvement with TMMi (Test Maturity Model integration) is important, ways to identify opportunities, and the benefits of successfully improving said improvements.

This TMMi Professional certificate is not only for those looking to improve their organisation. It also serves as a stepping stone for those who want to formalise their skills in TMMi, and potentially move towards becoming a TMMi and/or lead assessor.

Audience Profile

This course builds upon the principles and terminology taught in the ISTQB syllabus, so an ISTQB certification is recommended but not necessary.

It is designed for:

- **Understanding**
Test managers or anyone involved in test process improvement seeking a solid understanding of the TMMi model.
- **Upskilling**
Testers or test leads wishing to elevate their career into test process improvement.
- **Accrediting**
Anyone wanting to accredit their skills as a TMMi Professional and continue towards becoming a TMMi or Lead Assessor.

At Course Completion

- Be able to eloquently explain to management the business importance of test process improvement
- Gain the ability to guide and advise an organisation or project when using the TMMi model as a basis for their test process improvement
- Provide support in the interpretation and understanding of the TMMi model, including the relationship of TMMi to the CMMI model
- Act as a co-assessor in informal TMMi assessments
- Participate in programs for improving the test process within an organisation or project and can identify critical success factors
