

## [VMAIRCDIS]: VMware AirWatch: Configure and Deploy Integrated Solutions

Length : 2 Days  
Delivery Method : Instructor-led (Classroom)

### Course Overview

This two-day course will provide students with the skills required to configure and provision VMware AirWatch® cloud deployments. It will cover the enablement of containerized applications, deployment and management of corporate email, and integration with enterprise resources. Students will access hands-on labs and learn best practices for mobile deployment, with a focus on how to deploy and manage VMware AirWatch applications.

Students who complete this course and pass the accreditation exam may enroll in the VMware AirWatch: Install and Deploy On-Premise Solutions course.

VMware AirWatch: Configure and Deploy Integrated Solutions is also available as an On Demand course. For information on that course, follow this link: [VMware AirWatch: Configure and Deploy Integrated Solutions - On Demand.](#)

### Product Alignment

- VMware AirWatch® Enterprise Mobility Management™

### Audience Profile

VMware AirWatch administrators, IT staff, sales engineers, consultants, support and helpdesk personnel, solutions architects, solutions engineers, and VMware AirWatch installers and implementation specialists

### At Course Completion

- Identify important installation and upgrade prerequisites
- Learn to install, configure, and upgrade an on-premise VMware AirWatch server
- Discuss the benefits of using advanced installation techniques, including the use of high availability and enabling redundancy through multiserver configurations
- Review and recommend appropriate upgrade options and strategies
- Troubleshoot common installation and upgrade problems

### Accreditations

This course prepares students for the following accreditation:

- VMware AirWatch Expert Accreditation: Enterprise Mobility

**Pre-Requisites**

This course requires completion of the following course:

- VMware AirWatch: Configure and Deploy Integrated Solutions

One of the following certifications is required:

- VMware AirWatch Professional Accreditation: Enterprise Mobility
- AirWatch Technical Post-Sales Cloud Professional

**Course Outline**

**Module 1: Advanced AirWatch Architecture**

**Module 2: Prepare for Installation**

**Module 3: Install the AirWatch Application**

**Module 4: Install Reports**

**Module 5: Perform Post-Installation Configuration and Verification**

**Module 6: High Availability and Disaster Recovery Configuration**

**Module 7: Prepare an Environment for an Upgrade**

**Module 8: Perform an Upgrade**

**Module 9: Complete Post-Upgrade Environment Verification**

**Module 10: Troubleshoot Common Issues**
